Transport

Please use the space below to make comments on this part of the Neighbourhood Plan.

I wholeheartedly agree with the following from the plan – Malvern urgently needs better provision for cycling. Get on with it!

“Although there are a number of walking (and cycling) routes along the Malvern Hills, there is little in the way of off-road or segregated cycle routes within the urban area. However, there are opportunities to provide segregated routes along the Commons and adjacent to the brooks located within the NPA. These could provide opportunities for sustainable commuter and recreational travel. In addition, the provision of on-road segregated routes to and from nodes of activity could also provide sustainable travel.

The Town Council will work with the MHT, WCC and other stakeholders to bring forward a strategy for creating a network of Sustainable Transport Routes within the NPA. The Strategy will then be used to make applications for funding within the Local Transport Plan and other sources to bring forward the routes enabling residents, workers and visitors to effectively and safely travel around the NPA by foot or cycle.”

Please use a separate form for each representation.
