

12/12/18

Dear Sir/Madam

Hayslan fields should remain as a green open space for future generations to enjoy. The area surrounding it is heavily populated and it is vital that the local community can continue to enjoy some open space for future generations. All ages walk across and enjoy the fields.

Malvern has seen considerable housing development over recent years and the South Worcestershire Plan has considered the allocation of land for future housing. Hayslan Fields is not part of this plan for the very reason it is one of only a few green open spaces left in the middle of Malvern and is enjoyed by many local people.

Traffic from Malvern to Worcester and the motorway junctions is horrendous with road becoming increasingly congested. This can only get much worse with further housing developments. We shouldn't allow large scale building developments to occur in Malvern as it is such a long way away from a motorway access. Surely land closer with easy access to major roads are a better and more sensible option.

Yours faithfully

Mrs K Fry
