MKD3

Please use the space below to make comments on this part of the Neighbourhood Plan.

My most vehement and severe objection is to MKD3. I feel that this plan has no right to specify which kind of building materials should or should not be used in development to 2030. I understand the need to preserve the feel of the 'old' village, this is what a conservation area should be for, and these should be protected fiercely. All other cases should be judged on their individual merits. Who knows what marvellous building materials may become available in the next decade. Do we really want to restrict ourselves to brick and wooden window frames?

I fully support MKD17 as someone who informally works from home. I would say that mobile phone signal in the village remains poor in some areas, and I often lose signal during both work conference calls, and personal calls so I was disappointed that mobile signal did not appear to be addressed in the communications section.

I welcome the commitment to improving footpaths in the area, but was disappointed that there is no mention of the stretch of road between the St Peter's Church car park and the junction with Hollins Lane, this is a route used day in day out by school children and parents with very young children and babies, and at the moment they have to walk on the road for an approximate 100m stretch. It is hazardous and only a matter of time before there is an accident.

Objective 8

Please use the space below to make comments on this part of the Neighbourhood Plan.

I feel object 8 skims over the issue of a lack of childcare places for the 0-2s, as a local parent I had to travel to Worcester for childcare for my baby. Currently the pre-school only accepts children from the age of 2. There is a severe shortage in the area for provision for the 0-2s – the preschool could be expanded to become more of a ‘full service 0-4’ nursery alongside a bigger primary school in the future. This is a plan for the next 15 years after all.

It is also worth noting that as far as I’m aware the childminder mentioned in the document is no longer childminding – I certainly was unable to find one for my children.
