Key Diagram

Please use the space below to make comments on this part of the Neighbourhood Plan.

There are reprographic errors in the key diagram as illustrated below;

Features marked A and C on the “ Sites of Regional or Local Wildlife Importance “ overlay should align with points B and D on the underlying map. There are similar registration errors in the “development boundary” overlay as is obvious in the north east part of the left hand extract shown above.

I trust that to avoid possible future confusion, the editors will rectify this reprographic mistake.

Taking it as read that the key diagram will be corrected; I support the proposed local plan in general, and particularly in respect of Sites of Regional or Local Wildlife Importance (Paragraphs 4.12 and 6.33), the location of the development boundary (Key Map), and policies relating to: development outside the development boundary (MH3), Landscaping (MD2), Key Views (MV1).

Please use a separate form for each representation.

Future Notification

Please state whether you would like to be notified of the decision on the Neighbourhood Plan proposal:
