The complete document
Please use the space below to make comments on this part of the Neighbourhood Plan.
. This is a very detailed and well put together Development Plan and shows the dedication of our town councillors.
Section 4 The Strategy. I particularly support paragraph 12 regarding trees, woodlands and preserving habitats.
Section 6 Paragraph 6.33 – the supply of allotments close the Guarlford Road is important if housing plots become smaller.
Policy MH2 emphasises that new developments do not affect the landscape character is protected. In my view it is absolutely vital for the protection of the beauty of this town.
The key map identifies our beautiful commons, unique to our tone which must be protected.
I believe that brown field site within the boundary should be developed as a priority even though it may be more costly.
Policy MH3. I believe that development as far as possible should kept within the boundary with the absolute minimum outside it and no large estates.
Policy MD2. It is absolutely vital that new developments do not destroy the uniqueness and beauty of our hills and commons as well as the view to and from them. In my view these must be protected at all costs.
I strongly support many aspects of this document and urge the Malvern Hills district County to support as much of this very comprehensive document as possible as possible.
